

# How To Print Stickers and Bookmarks

The stickers and bookmarks have been designed to be printed in-house. Please use the following instructions to have the best experience.

## Stickers

Please use Avery Round Labels 5294 for both the **I <3 My Eyes** and **Truffles** stickers.

Print in color and follow the instructions according to your printer.

## Bookmarks

Please print in color on letter sized cardstock, 2-sided. Once your desired quantity is printed, proceed to use a guillotine cutter or paper trimmer instead of scissors for a more precise cut. There is no bleed built-in, please trim directly at the edge of the artwork for best results.

trim along these edges
