

Vision Loss Prevention and Mitigation in Adult Primary Care

This activity has been approved for *AMA PRA Category 1 Credits™*

ECHO-Chicago provides training via Zoom to build capacity at the primary care level to help primary care providers (PCPs) become more competent and comfortable delivering care. In partnership with Prevent Blindness, this series will use an evidence-based approach to improve and empower PCPs with knowledge and confidence to deliver better healthcare across the lifespan, promote the prevention of vision disorders, and improve healthcare for patients who are visually impaired or those patients at risk of losing vision. This program is open to primary healthcare providers and eye care providers throughout the United States, and is sponsored by Amgen. **There is no cost to participate and no travel (completely virtual).**

Beginning December 4th

Every Wednesday (6 weeks)
12:00 PM - 1:00 PM (CDT)

Series Curriculum

December 4: Age Related Macular Degeneration (AMD)

December 11: Diabetes, Hypertension, and Eye Health

December 18: Diabetes

December 25: No meeting - Midwinter Recess

January 1: No meeting - Midwinter Recess

January 8: Glaucoma

January 15: Cataracts, Autoimmune, and Dry Eye

January 22: Vision Rehabilitation, Assistive Devices, and Community Resources

Lead Facilitator

Janet Garza, OD, FAAO, ABO (she/her)

Clinical Associate Professor

Coordinator, Primary Care Optometry Residency Program

University of Houston College of Optometry

Participants receive:

- CME credits certified by the University of Chicago (1 credit per hour attended) for PCPs, and COPE credits for ODs
- New skills and knowledge through case-based interactive learning (including cases provided by participants)
